QRZ FROM WARS

The WELLESLEY AMATEUR RADIO SOCIETY will hold its December meeting on Tuesday, December 5th at 7:30 PM in the Club Room.

We expect to have a representative from the National Radio Company explain the why and wherefores of their new National 200. If you are a devout CW man, a hold out AM or SSB operator, come and take a look at this new piece of equipment.

The Club has developed a truly fine program in addition to the regular monthly meetings. Are you interested?

1. Monday evenings - Study of the questions for the Advanced and Extra Class license examinations. Open only to those who are regular dues paying members.

2. Beginning Tuesday, November 28th - a course for those interested in Technical or General Class license.

3. Wednesday evenings - Equipment Night - to get a Club station operational.

4. Beginning Thursday, November 30th - a course for those interested in the Novice examination.

The Club welcomes anyone interested in either the monthly meetings or other Club activities.
